Hi Shaik Abdul Basith

Congratulations! We're thrilled to let you know that **Team Zeros and Ones** will be **advancing to Phase 2 of Health-a-thon 2026**.

This is a significant achievement. From **over 450 idea submissions** across Cancer Care, Diabetes Care and Maternal Health, your idea stood out and earned its place in the next stage of the hackathon. You should be proud of the work and collaboration that brought your team here.

Phase 2 is where you take the next step: from idea to build. You'll now enter the Build Sprint, where you'll work closely with a dedicated mentor to strengthen your solution, challenge your approach and develop your idea further.

The Reskilll team will shortly share the **Phase 2 details, mentor allocation, session schedules and next steps**. So keep an eye on your inbox and WhatsApp.

Once again, congratulations and welcome to the **Build Sprint!**

We're excited to see what you build next.

Warm regards,
Ojaswi Khandelwal
Health-a-thon 2026
